

years. The exact scope of work will need to be determined when the station is in need of rehabilitation or replacement. An allowance of 1.5 million dollars has been proposed to allow for the reconstruction of the station in the future.

**Areas in the Urban Growth Boundary not served in the planning period should be served by on site systems.** These systems may be operated on a public basis by the City of Pigeon Forge or privately.

## 7.2 Public Involvement/Public Meeting

This planning document will be presented to the Department of Public Works followed by a work session with the Pigeon Forge City Council. Pending Approval by Public Works and the City Council, the document will be presented in a public meeting advertised through the local media. A transcript of the meeting will be included in the Appendix E.
